

Dear Early Care and Education Provider,

The Program for Infant/Toddler Care (PITC) Regional Support Network is pleased to announce a summer webinar series to support infant/toddler care teachers in providing respectful and responsive care. At PITC, we consider a relationship-based approach to caring for infants and toddlers essential. PITC believes responsive, respectful care in a relationship is key for supporting early learning and connections with families.

To register, visit the [CA Early Care and Education Workforce Registry](#). Descriptions of each event and a registration link can also be found on [pitc.org](#).
