

Please join us for this special presentation by

***Kathie Snow***

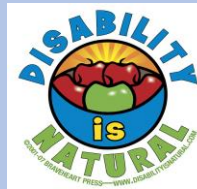

**Founder of  
*Disability is Natural***

**February 2, 2021**

**6:00 – 8:00 p.m.**

“A green apple is more like a red apple than different, and a person with a disability is more like people without disabilities than different. One out of every five Americans has a disability. Like gender, ethnicity, and other traits, disability is a natural part of life and doesn’t have to be a barrier to a person’s success!”

***Kathie Snow (parent, author, motivational speaker)***

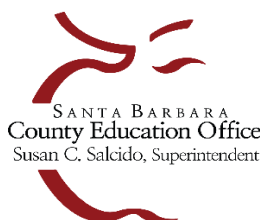

**This special presentation will discuss:**

- Like gender, ethnicity, and other traits, disability is one of many natural characteristics of being human!
- What can happen when we deconstruct disability, use People First Language, and focus on people's strengths and abilities?
- Our attitudes drive our actions.
- Amazing change is possible when we think and speak in another way!

To **register** for this Zoom event, please email Shelley Trost at [strost@sbceo.org](mailto:strost@sbceo.org)
